

## Panopto Recording Workaround

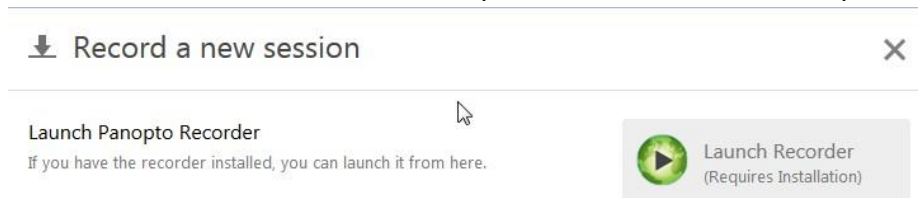

1. Launch an internet browser
2. Go to <https://uncc.hosted.panopto.com>
3. On the right side of the screen select **UNCCMoodle** from the drop down and click **Sign In**

4. Click **Create** next to the search and then select **Record a new session**

5. Now click **Launch Recorder** at the top of the new window that opens

6. Another window will pop up and you will need to confirm that you want to the program to launch. Now you will be able to record as you normally would.
